

Assessment Team Leadership

Setting Up For Success: Developing an Assessment Team for Early Childhood Special Education

Join us for a two part lunch series on Assessment Team Models. Learn varying ways that LEAs, SELPAs, and/or COEs work to build effective assessment teams that are equipped to identify the needs of all early childhood learners who are referred for an assessment.

This series will provide information on a variety of models and approaches that are actively, and effectively used in the field of early childhood. Participants will be provided with opportunities to engage with the presenters and ask questions. If you are looking for ways to improve or restructure your current assessment team approach, this series is for you! Resources will be provided throughout this series.
